By 19 September 1953, a new cable was to be laid for the NVL between Gross Neuendorf (O 53/V 57) and Lichtenberg (O 53/V 53) in the Frankfurt/Oder area. The cable consisted of 30 strands of wire each 0.9 mm in diameter. Six retransmitting terminals were also to be established. The cable was laid by the RFT "Fernmeldekabel Anlagenbau Berlin" and will later be maintained by the German postal administration.

25X1A

Comment: The purpose of the cable has not been determined.

the cable mentioned will be part of a more comprehensive cable laying project.
